

Through its 7-inch capacitive touch display the iLX-007E provides super-harp graphics and a stunning image, plus an unmatched touch response. What's more, the volume, track, home and a Siri hard key are easily accessible and offer swift simple use.

Alpine's Tunelt App

Alpine's Tunelt application is designed to make sound tuning a breeze, offering advanced audio settings, search and download of preset audio parameters all via your iPhone and the downloaded Tunelt app.

Shallow Chassis Design

At half the depth-size of a onventional 2-DIN chassis, now coming in at 70mm deep, there is more space for easy fitment and avoids the need to modify vent systems and other existing car components in late model vehicles.

iLX-007E

7" IN-DASH RECEIVER WITH APPLE CARPLAY

Apple CarPlay gives you an incredibly intuitive way to make calls, use Maps, listen to music, and access messages with just a word or a touch. When you connect your compatible iPhone to iLX-007E, you can control Apple CarPlay from the 7-inch touch screen or activate Siri to minimise distractions. You'll like the clean, flat design and slim depth for easy installation.

Your original Apple apps like Phone, Music, Maps, Message

and Siri will now be seamlessly at your fingertips displayed on your clear 7-inch touch screen mounted right there in your dash. Future third-party applications will add future functionality options such as internet radio.

Apple CarPlay is compatible with the iPhone 5S, iPhone 5C, iPhone 5, iPhone 6 and iPhone 6 Plus smartphones running iOS 7.1 or higher.
